Cost competitiveness and absolute reliability are the hallmarks of WEG Variable Speeds Drives and WEG electric motors. These state-of-the-art products offer functionalities that meet all HVAC requirements. And this is underpinned by Zest WEG Group's responsiveness when it comes to technical and after sales support.

The Zest WEG Group, a subsidiary of leading Brazilian motor and controls manufacturer WEG, started out as a South African company and maintains its strong commitment to contributing to the development of the African region. By leveraging best practice

engineering and manufacturing capabilities, the group is able to offer a range of standard off-the-shelf products as well as end-to-end energy solutions.

An in-depth understanding of the requirements for HVAC applications, access to quality product solutions and years of experience have ensured that the Zest WEG Group service offering is fit-for purpose. From single product installations to individually customised solutions, which are application specific, the latest technology is used to ensure optimum performance and reliability without

compromising on energy efficiency. WEG products are engineered to facilitate a safe and reliable plant environment with operational stability and the highest possible production levels as an objective.

Reduced maintenance and ease of serviceability assist in lowering the total cost of ownership for operations. Supporting customers is key and the Zest WEG Group operates a strategically situated network of branches and distributors across the continent. This ensures the highest levels of technical support as well as easy access to product and parts.
